Vera Le Doux – veraledoux@msn.com

Taos City of Light is distinguished by its connection to the Mountain Spirits, the Grandmother and Grandfather energies, and Native American wisdom. An etheric connection to Arcturus also contributes to its pure, sacred vibration. Taos has two sub-Sister Planetary Cities of Light with similar energies-Santa Fe and Albuquerque. This area of northern New Mexico, encompassing all three cities, attracts starseeds, artists, writers, freedom thinkers, pioneers and innovators.

2. Aufkirchen, Starnberger See, Germany

Planetary Sister City: Tallin, Estonia

Oliver Hauck – oliver.hauck@lichtbringer-kristalle.com, ohauck@gmx.net

Aufkirchen has very much of the energy of Mother Mary, as this little village south of Munich at the Lake Starnberg was a pilgrim village for hundreds of years for her energy. Aufkirchen is very connected to the White Brother and Sisterhood and feels very much like a Stargate to the universe. Also, Aufkirchen has a strong connection to their beloved brothers and sisters from Arcturus and the Pleiades.

Star Sister City of Light: Taharae, Arcturus (Helio-ah is the guardian)

Planetary Sister City: Shasta & Twin Falls, both in USA

Donna Dunfield – jimdunfield@sbcglobal.net

The Carson Valley Planetary City of Light has the energy of the Native Americans. In meditations done here many have seen a native brave. Others had visions of our group all living here as native healers, helping to bring in star babies. At one time this area was known as Eagle Valley, you see many eagles in this area to this day. Another energy prevalent here is that of the sacred waters. Most of the crystals we buried around the Valley were in the waters of the Valley. We have done other ceremonies in the past to honor the waters. It is hard to believe that our high desert area was once covered by water!

It is programmed with the universal frequencies of Creator Source and serves as a bridge of light, healing and unification of all 12 dimensions. By its 12 facets it transforms the 12 divine rays of creation into the heart of Mother Earth. It brings healing and light for the Earth and unites the 12 string DNA of all beings. It is very effective for individual, planetary and cosmic quantum healing, and for enlarging the consciousness through the universal creator master energies. 5. Chihuahua, Chih, México C

Planetary Sister City: Conception, Chile

Biby Sifuentes – gof33_biby@yahoo.com.mx

Chihuahua is represented by blue and native energy. We take the Rarámuri people as a social model reference called "the old people of a future society". Historically, we have gestated the big changes planted in the heart that were made by our own choice. Points of confluence which have re-United paths, resources and cultures. In this place, people's hopes and dreams converge, it has mirages, fires and wind currents that transform and change lives. Connected with the Pleiades, its energy is the energy of **LOVE and HARMONY**, it is life's hope, the trust of evolution and movement: the desert silence where the sound of the sands carry a message of peace. In the heart of this place, there is something particularly harmonic about it; nature's strength is vast, loving and overwhelming. It is a joining Magnetic Energy, a place for reUnion of bonds, a place that communicates and integrates you. It is a **Crystal and Shimmering Energy**. The Planetary City of Light is anchored over a 6 point star with shimmering crystals. The huge crystals from the Naica mines are close by as well as the 8th Arcturian Crystal from Barrancas del Cobre (Copper Canyon). We have Earth's energy present. There is the presence of an elemental gnome from the Earth (caves). It has an excess of male energy, energy that gets translated into action that vibrates with the union of the Sun and the Earth. We shelter, we include, respect the differences and we love the diversity that we are united in.

Olga Stangl – ostangl@charter.com

The Pasadena City of Light sits on the foothills of the San Gabriel Mountain Range. From the top of the mountain one can view the outline of the beautiful Pacific Ocean coastline. Our City of Light is the bridge which connects the heart and soul as well as the heart and soul of Southern California. Pasadena is the home of The California Institute of Technology (Cal Tech) and Jet Propulsion Laboratory (JPL) which host international scientist, conferences, and students from all over the world. We have placed our crystals in

strategic areas of high density automobile and walking traffic to enable the 5th dimensional energy to be absorbed by those driving and passing by the crystals. The 5th dimensional energy is then carried throughout the planet as people return to their various homes in international cities. Our members feel we represent integrity, generosity, abundance and unification of all peoples. We actually send 5th dimensional energy, love, and light to the whole of Southern California with intent to spread the healing as far as possible during our meditations.

We have monitored the crime rate in our city and have been told by the Chief of Police the violent crime rate has dropped by 20%. We believe our meditations and the 5th dimensional energy has helped reduce violence. Pasadena also has 1500 non profit organizations helping those in need. In these past two years donations from our generous Pasadena residents have continued to support these non profits organizations even during bad economic times.

Here was held the "World Water Expo" in 2008. This is a strong connection with feminine energy. The connection of Zaragoza with the male energy comes with the wind, from el Moncayo, the nearby Mountain, that comes along blowing hard to join with the strong character of the people here, called "maños". There is thus a kind of balance between masculine and feminine energies. Zaragoza is also the axis of the four cardinal points, physically and energetically, that connects almost with the same distance, with the featured cities of Barcelona, Bilbao, Madrid and Valencia. The city of Silver is located at the edge of the Silver River in Argentina, (Argentum: Silver) it's a perfect feminine mandala. This is the only city on the entire Earth with this characteristic of a living, 4D mandala. It was designed and constructed by masons, based and inspired by the Jules Verne's stories "La Ville Francaise" (the French village) using sacred geometry at the end of the XIX Century. There are six meters deep tunnels underneath the city which no one knows what are there for. This has been recently been released to the public. It has a lot of special characteristics, also based on Mayan numerology where the number 13 and 52 are the central streets of the mandala. Every seven blocks there is an avenue and a green space. It's the mandala that complements the energy of the Federal capital, which is where the energy comes in and distributes it to Argentina on all levels, acting as a funnel, it's location on the map verifies this purpose. On the 08/08/08, Argentina was made the place for the entering of the Orion and I AM energy, purely feminine energy, which sensibilites us with the underground city of AN TA RA AH, located underneath the city. Over fifteen years ago, we were performing urban sonic healing at the center of the mandala to a square, (Moreno square) which is the geographic center and mandala of the City of Light using quartz crystal bowls, making them sing at the center of the mandala. Planting crystals in this and all squares.... Also at the outskirts of the square and we were able to prove that a great pyramid of light arises from the perimeter towards the central zone (Moreno Square). Last year, we were the place for a city of light, which is now a sister city with Mexico. We are also coordinating the celebration for the portal of 11/11/11 the same day the Urban Mandala Center.

San Pedro de la Paz lies Southwest of Bio Bio River, in front of Concepcion, City of Light, almost at the geographical center of continental Chile. Its history dates back to 1600 when the Fort San Pedro was founded to reinforce the defense line between the host and Araucanian Natives. The natives called "Mapuche People" (Mapu: Earth, Che: people, "People of the Earth") and was strongly identified with the love for Mother Earth. The name of the city derives from the Peace Treaty that was signed in this fort. The Virgin of the Candle (Virgen de la Candelaria), was venerated as the Patron of The Light. Today, her image brings eternal light of protection to the entire city and to the pilgrims along the country.

Many neighbors witnessed one episode that happened during the past February 27th, 2010 earthquake. In that moment, the priest in charge of the Sanctuary felt the magnitude of the earthquake and realized that the ancient image was at imminent risk, so he removed it from the sanctuary. However, many neighbors said that they had seen all the time the image in the usual place, lighting up every minute with rays of love and protection to everybody who went there to look for a shelter. San Pedro de la Paz is a City of Light surrounded by nature. In every corner you can see the Creator's hand. Its lagoons are like water mirrors, the Coast Mountain Chain and the great Pacific Ocean, which defines its shape, provide the best landscapes worthy of the best of postcards. The owner of the Sacred Land was shown the property in a vision one day, and was shown a multi-cultural center, a place for learning, worship and meditation. The Land is also known to be a spot where there will be a physical opening, a portal to the Inner Earth, which will be opened during an earthquake in the very near future. This prediction is also noted by Diana Cooper, and this area is shown as 'The Heart of the Dove' on a map in the book '*The Keys of Enoch*' by J.J. Hurtak. Belleville, planetary City of Light: Belleville is located on the shores of the Bay of Quinte, these waters connect with Lake Ontario and the Great Lakes system between Canada and the USA. Originally the site of a Native settlement known as Asukhknosk, these strong Native energies are still felt along with a primordial portal of Mother energies to which the early Native peoples were drawn. When activating an inter-dimensional portal in the downtown core, the strong primordial energies flooded forth. We were assisted by many energies both Native and those of Divine alignment to anchor and activate a stairway of consciousness (Ascension Ladder) to re-connect this amazing energy with Source.
